

Quality LASIK at a Price You Can Afford

NEW FOR SUPERIOR VISION MEMBERS

Superior Vision, through their agreement with TruVision, offers significant LASIK discounts to participating health plan members.

When you're thinking about LASIK, there are several things you need to consider: your surgeon, the technology, which procedure is best for your eyes and, of course, the cost.

TruVision is one of the largest third-party administrators of vision services in the country, with services to over 100 million members. TruVision can offer you a quality procedure at a price you can afford.

Why Pay More than you have to?

- TruVision brings you laser vision correction starting at \$55/month*.
- TruVision's participating board certified surgeons have successfully performed over one million procedures using only the best FDA approved lasers.
- The offer includes the great service you expect from a high quality LASIK provider:
 - Free LASIK Consultation
 - LASIK or PRK procedure
 - Post-Operative Care

10% Savings

Operators available 7am - 9pm (CT) Monday - Friday, 9am - 3pm Saturday

Deposit required when booking complete eye exam and is fully refundable prior to scheduling surgery. Please have eyeglass prescription prior to calling for an appointment. Price subject to change without notice. You must schedule through TruVision to receive the health plan pricing. All figures are estimates, actual monthly payments may vary. \$55/month per eye based upon 36 months of financing (starting at 5.99% APR). Does not apply to Custom LASIK or Bladeless LASIK. Rates for financing programs range from 1.99 - 23.99% APR. Upon approval, the Annual Percentage Rate available to you will be determined by the term for which you apply and your credit standing. These rates are available for a limited time and are not available in all areas. Discounts available as a courtesy through separate business partners. The health plan is not responsible for the products, services or information provided by the vendors.

LASIK Technology

A TLC Laser Eye Centers® Company

The Right Procedure for You

The FREE Consultation will help determine which procedure is best for your vision.

Conventional LASIK

Conventional LASIK corrects basic vision errors such as nearsightedness, farsightedness and astigmatism.

CustomLASIK

After deciding to have LASIK many patients opt for CustomLASIK — the enhanced FDA approved vision correction technology. Corneas are like fingerprints — detailed, unique and no two are alike. This uniqueness creates distortions that Conventional LASIK is not designed to treat. That's why we offer CustomLASIK.

- Using wavefront technology, an analyzer projects waves of light into the eye.
- A customized map is created for each individual eye.
- Digital technology identifies and measures imperfections 25 times more precise than Conventional LASIK to offer higher levels of precision and treatment accuracy.

Bladeless LASIK

A silent computer-guided laser is used during the first step of the LASIK procedure to create the corneal flap. Bladeless LASIK eliminates the hand held microkeratome, giving you a truly 'all laser' procedure.

- The laser allows customization of the flap.
- Accounts for the natural curvature of the cornea, creating a flap of uniform thickness.
- In recent studies done by IntraLase®, this technology may now make it possible to treat patients with LASIK who were previously dismissed as candidates due to thin corneas.

LASIK is an Eligible Pre-tax Expense

Members may further increase their savings by using a pre-tax account such as a Flexible Spending Account (FSA) or Health Savings Account (HSA). Before allocating funds to a pre-tax account for LASIK, Members should first find out if they are a good candidate for the procedure. TLCVision provides FREE Consultations to any interested Member.

The TLC Lifetime Commitment is available only at participating TLC Laser Eye Centers®. TLC Surgeon to determine eligibility prior to initial surgery. Not available with all packages. Must be purchased at time of surgery. A refundable deposit may also be required at the time services are scheduled.
